- Gained Hands-on experience in setting up and configuring virtual servers and networks. Utilized Linux command-line tools to perform various tasks. Explored multiple AWS services.

PROJECTS

Backup Solid State Drive For Ransomware Protection | [GITHUB-Link](#)

Aug-May 2024

- TECH STACK – Python
- Created a Backup Based Project whose main advantage is Automatic Backup. After successful completion of Automatic Backup, files can be stored in local folders as well as in Cloud like Google drive also. In Manual Backup, we have to specify source and destination folders from where we have to take the files and store the files. After Completion of both Manual and Automatic Backup we receive notification on E-mail. We can also Encrypt and Decrypt our files to provide extra security.

Hotel Digitalization | [GITHUB-Link](#)

Feb- Jun 2023

- TECH STACK – HTML, CSS, JavaScript, Bootstrap, PHP
- Hotel and Restaurant Digitalization through QR codes: Menu, payments, and specially orders streamlined, reducing labor costs.
- HTML, CSS, and JavaScript drive the project for a seamless customer experience, optimizing operational efficiency

TECHNICAL SKILLS

- **Web Development** - HTML5, CSS, JavaScript, PHP
- **Programming Language** - Python, JAVA
- **Database** - MySQL
- **Cloud:** Basics of AWS (Amazon web services) Cloud

CERTIFICATION

Programming with Python

Internshala
